### **DETAILED ACTION**

1. This action is response to the application filed January 13, 2005

#### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-10, 13, 15, 16, 19 and 20, drawn to evaluating the expected value of intellectual property based on the market value information of a research target, success-probability information and income estimate information.

Group II, claims 11, 12, 14, 17, 18, 21, and 22 drawn to evaluating the expected value of intellectual property based on the total research investment and the total investment distributions made to investors.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to the inventive concept of finding a property value using the market value information of a research target, success-probability information and income estimate information. Group II lacks the inventive concept of Group I, relating, instead, finding a property value based on the total research investment and the total investment distributions made to investors.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
4. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

Art Unit: 3694

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
